DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

As per Applicant's request, the time period for response to this action has been reset. As per MPEP 710.06, the shortened statutory period is set at ONE month.

Claim Rejections - 35 USC § 102 & 103

Claims 43-53 and 55-60 remain rejected under 35 U.S.C. 102(b) as being anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Sekiguchi et al., US 3,803,116 for the reasons of record set forth in the Office action of 9/28/04, and the additional reasons set forth in the Office action of 6/16/05. The 2000/2001 Sigma Catalog (page 319) was provided as evidence that human placental DNA was commercially available at the time of the invention.

Applicant's arguments filed 6/9/06 have been fully considered but they are not persuasive. Applicant essentially repeats previous arguments regarding what Sekiguchi would have suggested once human genomic DNA was commercially available and whether the invention as claimed is non-obvious for unexpected results, and disagrees with the Examiner's interpretation of what Sekiguchi would have suggested to one of skill in the art and why. These arguments have been addressed in the Office action of 3/9/06, and the rejection is maintained for the reasons of record.

Art Unit: 1633

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire ONE MONTH from the mailing date of this action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
